The Head Office and Others (HOO) recorded a loss of RM4.68 million for the quarter, compared to RM153.23 million in the same period last year. The substantially higher loss last year was mainly due to a fair value decrease of RM148.38 million on quoted securities in Verde Resources, Inc. (OTC: VRDR), compared to a smaller decrease of RM2.34 million in the current quarter.

Food and Franchise Operations (FFO) recorded revenue of RM17.79 million, broadly unchanged from RM17.85 million in the corresponding quarter last year. During the quarter, the number of outlets increased from 143 to 156, reflecting strong expansion performance. The segment posted a profit of RM1.39 million, compared to RM1.40 million in the same quarter last year, consistent with the accrual basis of profit recognition.

Property Investment & Management (PIM) recorded revenue of RM0.27 million for the quarter, compared to RM0.37 million in the same period last year. The segment reported a loss of RM1.48 million, slightly improved from a loss of RM1.69 million in the corresponding quarter, mainly due to reduced business activities within the segment.

Resources & Sustainable Energy (RSE) posted revenue of RM0.82 million for the quarter, compared to RM0.99 million in the corresponding period last year. The segment reported a loss of RM2.29 million, compared to a loss of RM3.52 million in the same quarter last year, mainly due to lower business activities during the period under review.

B2. Financial Review for the Current Quarter with the Immediate Preceding Quarter

	Current Quarter ended 30 Sep 2025	Preceding Quarter ended 30 Jun 2025	Varian	ces
	RM'000	RM'000	RM'000	%
Revenue	18,884	22,782	(3,898)	-17%
Loss before taxation	(7,064)	(89,028)	81,964	-92%

The Group reported revenue of RM18.88 million for the quarter, down from RM22.78 million in the preceding quarter. Nevertheless, the Group recorded a lower loss of RM7.06 million, compared to RM89.03 million in the prior quarter.

The higher revenue in the preceding quarter was primarily driven by increased supply of raw materials from the Resources & Sustainable Energy (RSE) segment. During that quarter, the Group also recorded a fair value loss of RM81.01 million on quoted securities, which significantly widened the loss to RM89.03 million. Excluding this impact, the loss for the current quarter is broadly in line with the preceding quarter.

While the losses arising from fair value adjustments and mark-to-market movements affected short-term results, the Group remains confident in its operational fundamentals and long-term recovery prospects.

B3. Prospects

Both headline and core inflation are projected to stay moderate for the remainder of the year, supported by stable domestic demand and continued easing of global cost pressures. Alongside government measures to mitigate the impact of domestic policy reforms on households, these factors are expected to maintain a low and stable inflation environment. Looking ahead to 2026, inflation is anticipated to remain moderate, underpinned by steady domestic demand, a stable labor market, and favorable supply conditions.

Amid these macroeconomic conditions, the Group remains committed to its strategic priorities: pursuing targeted expansion in high-growth sectors, harnessing technology to enhance operational efficiency, and implementing disciplined cost optimization — all aimed at building a more sustainable and resilient revenue base.
